DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Holby Abern on 1/2/07.

The application has been amended as follows:

Claims 1 – 13 have been cancelled.

Allowable Subject Matter

Claims 14 – 49 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record namely Randall (WO 03/009240) and Soltesz (US 5, 830, 069) fail to teach a method for operating a game device wherein the game device displays to the player a plurality of different symbols, the symbols are sorted into a plurality of separate divisions that without revealing to the player what symbols are sorted into which divisions. The player is able to selected or choose a division of symbols and if the player selected division possesses more than one symbol, the amount of different symbols is decreased. The game machine then displays to the player the different remaining

symbols if the player-selected division possesses more than one symbol. This selection and symbol displaying process is then repeated until the remaining different symbols displayed equals the amount of different symbols in the selected division. The player is then awarded an outcome based upon the symbol of the player-selected division if the symbol is the only symbol in the player-selected division.

The most relevant art of record namely Randall, discloses a method of playing a game machine wherein the player is presented with multiple columns or divisions of colored spaces. The colors represent awards. The player is allowed select a column in which to obtain an award from. Upon selection the player receives an award based upon the total value of all awards associated with the one or more like-colored regions of the selected column. Randall does not however teach or suggest the decreasing an amount of symbols in a set by eliminating the symbols not associated with a selected division if there is more than one symbol in the selected division. Nor does Randall disclose or teach providing an award to the player based upon the symbol of the selected division if the selected division if the symbol is the only symbol in the selected division. Randall also does not disclose or teach the sorting of symbols in a plurality of division without displaying the symbols to the player.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
